Emergency Animal Sustenance Assurance Program

Midrand, South Africa

December, 2013

Confidential

AGD's Emergency Animal Sustenance Assurance Program (EASAP)

Another vital service AGD is proud to announce is its Emergency Animal Sustenance Assurance Program (EASAP).

EASAP provides life-sustaining food/nutrients/water to all varieties of livestock & wildlife when their regular sources are unavailable due to:

- Extreme Drought
- Flooding
- Wildfire
- Other Weather (or Non-Weather) related events

AGD's Emergency Animal Sustenance Assurance Program (EASAP)

For those responsible for supporting livestock operations, AGD can ensure that these farmers have the emergency food & water supplies they need to overcome any type of disaster which threatens their food/water supply and minimize animal losses.

AGD's Emergency Animal Sustenance Assurance Program (EASAP)

For those responsible for the well being of park wildlife, AGD can ensure the animals under your care are provided the sustenance they need when their natural environment is unable to provide for them.

AGD's Emergency Animal Sustenance Assurance Program (EASAP)

Our mobile feed/water production units can be on-location & functioning within 24-hours, producing as many tons per day as are needed within 7 days. In cases of extreme urgency, we can ship in daily emergency food & water rations from Day 1, until our professionally staffed on-site units start producing.

AGD's Emergency Animal Sustenance Assurance Program (EASAP)
